SPORTS SURFACING

Smith Construction has a wealth of experience in all aspects of sports surface construction, offering its clients a wide variety of artificial grass, polymeric and hard court options. A turn-key design and build solution from 3G football and rugby surfaces replicating natural turf to meet FIFA, The FA and RFU requirements. Water-based, sand-dressed and sand-filled hockey pitches and multi-use surfaces are made to meet FIH performance standards. Smith Construction design and build athletics tracks and field event facilities, indoor and outdoor courts, and multi-use games areas for tennis, netball, basketball and play areas.

BUILDINGS

Over 30 years experience in the construction industry, and capable of constructing both traditional brick buildings, and steel framed cladding buildings, for both public and private clients.
